New Officers

Elections were held in the Spring and Cynthia Van Dam was elected Vice President. Dick Drake was re-elected to the office of Secretary; however, we are making an effort to relieve Dick of some of the responsibilities that somehow just evolved through the years and became part of the Secretary's job. The Society's office staff will try to give us more support, thereby eliminating some of Dick's "chores," namely mailings and membership. At the present time, Annita Zalenski is acting newsletter editor (another of Dick's responsibilities - is it any wonder that he is willing to serve as Secretary again?). Thank you Cindy and Dick for agreeing to serve as officers.

Officers for 1993-94

A Genealogist's dream!!! Florida State Archives has acquired a microfiche set of the state's driver license applications from 1980-88, which are open without restrictions. Also, they will soon have the Automated Archives' Genealogical Research System, which provides databases on CD. You will be able to search the marriage records of LA, IL, IN, KY, TN, OH, AL, GA and SC. Later they will have NC, VA, MD, TX, AR, MO and MS. Also, later they will have the Soc. Sec. death records on CD.

Sorry NJ & NY, we're not covered. Guess we have too many people and you would have to travel to FL to see the records anyway.

Those Irish who paid taxes to the Church of Ireland or the government in Ireland from 1820 to 1864 may be found in the Index of Surnames of Householders in Griffith's Primary Valuation Thithe Allotment books, commonly called the Householders Index. This is available on microfilm through the LDS library.

The German Genealogical Soc. of America has a copy on CD-ROM of all W. German telephone directories, which they will search in various ways for a fee. This procedure can help with a geographical clue to your family's area of origin, even if they no longer live in the original town. For an order blank, send a SASE to GGSA, P.O. Box 291818, Los Angeles, CA 90029.

CANFIELD CEMETERY....DOREMUS BURIAL GROUND

Through the May, 1993 Newslettter of the Genealogy Club of tne Library of The New Jersey Historical Society, we learned that Guido Weber, a Seaton Hall University student, has undertaken a research project to document all burials in the Canfield Cemetery, also called the Doremus Burial Ground. Mr. Weber is compiling a history of the cemetery which dates to the late 1700's. People from Cedar Grove, Little Falls, and Fairfield are buried here. Records concerning the cemetery are sparse and those records that are extant have omissions and inaccuracies. Mr. Weber would be pleased to hear from anyone having information concerning the history of the cemetery or people buried there. If you have information to share with Mr. Weber, please contact him at 192 Anderson Parkway, Cedar Grove, NJ 07009, Phone: (201) 785-3866.

family medical records

As scientists develop greater understanding of genetic mechanisms and environmental factors, they are better able to recognize how inherited traits interact with infections, medications, X-rays, drugs and many other influences before and after birth. This makes an accurate family health history more important than ever.

Such a record may be started at any time, but the ideal is before a family is planned, or even before marriage. Faithfully kept, it can be a useful diagnostic tool in all medical consultations, including genetic counseling.

Free *Family Medical Record* forms, with space for vital information covering three generations, are available from your local March of Dimes (see your phone book).

Also available at no charge is the *Family Health Tree*, an attractive and fun brochure that helps you gather and record your medical genealogy.

RESEARCHER'S CARD FILE - (SURNAME INTEREST FILE)

The genealogy library maintains a Researcher's Card File - (Surname Interest File) - which consists of the names and addresses of persons researching Passaic, Bergen and other northern New Jersey families. It is indexed by surname being searched. There are a few hundred names on file. Also included are the names of all those who write to the Society for genealogical information. It is a wonderful resource and has helped many researchers. If you wish to update information you have previously submitted or wish to submit new material, please send the surnames and your addess to:

Thank you, Isabel

Sincere thanks to Isabel Kerwin, our outgoing Vice President. Isabel served as Vice President for five years and was the "glue" that held our group together for a very long time. She was responsible for scheduling the many fine speakers and organizing the annual trips our club has enjoyed. In addition to volunteering one day a week in the library, and serving as Genealogy Club Vice President, Isabel compiled the "Embers" section of the club newsletter and contributed other articles and interesting bits of information. Isabel has agreed to continue to help with the newsletter. We'll miss her guidance, but are happy to know that she will still be an active club member.

Old Place Names - - Present County & Name

Several years ago, Richard Beamer compiled a list of old place names and noted the current name and the present county in which the town can be found. Dick has given us permission to reprint his work in this newsletter. The list will be of great value to those researchers trying to locate places such as Cheapside (Livingston, Essex Co.), Connecticut Farms (Union, Union Co.), Broadway (Beemerville, Sussex Co.), and Charlottenburg, (Newfoundland, Passaic Co.). Through the years the names of some towns have changed several times. Dick notes that "the list of old place names is far from complete, but does provide for some of the more common ones." Also, "in the Colonial period 'town' sometimes means what is now called a township rather than a specific village."

TEN GENERATIONS

There are many other relatives; aunts, uncles, cousins, etc. hidden among these generations of grandparents which make up many more relatives than you can imagine. It would take a lifetime to discover all of them. So keep on digging until you can't dig anymore and then remember to leave the unfound ones for someone in your next generation to find. Do you know who will go on where you have left off? Have you collated your records and given it to a couple of libraries? Time is running out.
